Game Guide
Smart Skills Corporation was established in Dubai, United Arab Emirates, in 2009 as a Creative Training Consultancy Center. In 2014, the corporation changed course to specialize in the design, production, and supply of creative training games. Now, we have completed eight years of excellence and innovation in the design and production of training games kits. To date, our creative products have reached more than 26 countries around the world.

At Smart Skills, we believe in the diversity of educational and training methods. We also believe that one of the most important methods of learning is through play and fun based on a clear educational methodology.

Smart Skills creative products enable facilitators, teachers, managers and team leaders to deliver world-class experiential activities. Our products contribute to an educational environment full of fun and can also be used for general events, student activities, scouting, and corporate events to add a challenge among participants that highlights their leadership skills, teamwork skills, planning skills and communication skills.
The Five Squares game is one of the most fun and exciting games. Each team player will be given a bag containing pieces of a puzzle. The task of your team is to form five squares of equal size. The task will not be completed until each individual has before him or her, a perfect square of the same size as that held by others.

**Objectives**
- Improve the interpersonal skills.
- Developing the effective communication skills.
- Improve the skills of problem solving as a team
- Highlight the importance of team unity to get the job done.

What is the Creativity Puzzle?

- The Creativity Puzzle is a large-scale puzzle (74x53cm) with 35 pieces that can be combined in several ways. Each participant gets one piece to decorate in his own style. Participants have the freedom to write, color or draw on their piece. Finally, all the puzzle parts get collected to form a creative combination of the participants’ pieces.

- The Creativity Puzzle develops an individual’s skills and involvements in an inventive way. The project provides a zone of freedom and creativity for every participant. Moreover, it produces a unique picture that consists of all individuals’ puzzle pieces and inputs. Simply put, this activity enhances teamwork and participation skills in a creative manner.

- The total number of pieces per one package is 35 pieces, divided into 15 inner pieces and 20 side pieces. Note that the size of any single piece is 10.5x10.5 cm. Furthermore, the overall size of one Creativity Puzzle after combining the pieces is 74x53cm. The following picture shows one Creativity Puzzle.
